# JAPAN'S DWINDLING HOME OIL SUPPLIES HEAVILY BLASTED

SMOKE COLUMNS RISE HIGH FRCM WRECKAGE OF OIL STORAGE CENTERS

By ROBERT GEIGER GUAM, May 10.—(P)—Japan's dwindling homeland oil supplies were blasted for the first time today by a record fleet of more than 400 B-29s.

Smoke columns rose 15,000 feet from wreckage of oil storage and fuel manufacturing centers on Honshu, main Japanese island, and returning Superfortress crewmen reported results "excellent."

The big bombers also struck at airfields on Shikoku and Kyushu Islands, from where Japan sends suicide planes into the battle for Okinawa.

Fulfilling Fleet Adm. Chester W Nimitz' promise of greater and greater air attacks on Japan, to-day's formation of sky giants car-ried a total bomb tonnage equivalent to the maximum goals of more than 1,000 Liberator bombers. And the Superforts winged more than 3,000 miles to do it.

3,000 miles to do it.

First on the list of oil areas to be struck were the Tokuyama and Otake fuel storage and manufacturing centers on the Inland Sea, a major source of supply for the enemy. Bombs were spilled in a one-target, sally at the Tokuyama naval fueling station and a nearby synthetic fuel factory.

Japan's biggest homeland oil storage center on tiny Oshima Island, just off the northwest tip of Kyushu, was another top target.

# TEXAS NEWSPAPERS HIGH IN PRAISE OF KENNEDY AND AP IN HANDLING OF SURRENDER

By The Associated Press
Both praise and censure were heaped or Edward Kennedy for the Associateo Press Paris bureau chief, action in sending news of the German surrender 24 hours before it was officially released.

Rival correspondents in Paris accused Kennedy of a "most disgraceful, deliberate and unethical double-c.ors." The reaction was varied to the extent that one writer er veferred to "an act of blatant irresponsibility" while another offered "prefound congratulations".

"Final judgment should be actived by his personal decision one cannot feel that Mr. Kennedy solved that dilemma wisely."

But within minutes after that attack the public knew we were at war. The public had the right to know just as quickly when the war ended in Europe. We have condemned the German method of handling news, but the German people knew more quickly than we that the war had ended. Were the vanquished entitled to that preference? Kennedy didn't think so. He made no secret of his intentions. His thoughts were of the doughfaces and their relatives at home when he told the censors that the German radio at Flensburg had broadcast the story of the surrender and that he was going to give it to the American people. Beyond question, the censors did not immediately stop him because not sure of their right

He explained his stand in a statement last night replying to Brig. Gen. Frank A. Allen, Jr., director of the SHAEF public relations division.
